ROCKLAND COMMUNITY POWER
Electricity Supply Program

Six Rockland communities will participate in the Rockland Community Power program, starting spring 2023: Clarkstown, Orangetown, and the Villages of Grand View-on-Hudson, Haverstraw, Nyack, and Upper Nyack

Eligible residents and businesses will receive a packet this winter explaining the program, energy choices, and how to opt-out.

Learn more at an online or in person Info Session!

January 3, 7 pm - Online

January 4, 7 pm - in Nyack Library

January 9, 7 pm - in Village of Haverstraw Village Hall

January 10, 7 pm - Online

Links at www.rocklandcommunitypower.com/events

With this program, eligible residents and small businesses in the six communities will have:

- Access to renewable and standard electricity at fixed, competitive rates
- No individual contract and no additional bill

This Community Choice Aggregation (CCA) electricity supply program enables municipalities to leverage the collective buying power of their residents and small businesses to secure more favorable terms on their electricity supply, while also strengthening consumer protection.

Make sure your cell phone and other electronic devices are fully charged. You may also want to pick up a portable charger to give batteries a boost when the power's out. 		

Rockland Community Power Energy Program: Energy at Competitive, Fixed Rates

Online and in-Person Information Sessions: Answers to Your Questions!

Click here for the schedule for in-person and Zoom meetings for January 2023

Six Rockland County municipalities are participating in the second round of the Rockland Community Power Program. Orangetown, Clarkstown and the Villages of Grandview-on-Hudson, Haverstraw, Nyack and Upper Nyack.

The Rockland Community Power Program provides eligible residents and small businesses with the option of either renewable or standard electricity supply at competitive, fixed rates, with no individual contracts for consumers and no exit fees.

Over two years, program participants in six communities saved over \$10 million. The program also gives each of us a way to reduce our carbon footprint, while capping electricity supply rates.

The program will renew with new rates in April 2023.

**ROCKLAND COMMUNITY POWER
ELECTRICITY SUPPLY PROGRAM**
Clarkstown, Orangetown, Villages of Haverstraw,
Nyack, Upper Nyack & Grand View-On-Hudson
will participate in this innovative
clean energy program.

The program enables municipal leaders to leverage the purchasing power of residents and small businesses to negotiate more favorable terms on their electricity supply, protect consumers and offer the option to choose renewable energy resources.

The new program will start April 2023. Eligible residents and businesses will receive a letter in February with their choices and information about how to opt-out.

Learn more at an info session in person or on Zoom or by phone:

Businesses face new struggles post-Roe

Abortion clinics moving across state borders not always welcome

Kimberlee Kruesi, Sarah Rankin and Hilary Powell
ASSOCIATED PRESS

BRISTOL, Va. — The pastors smiled as they held the doors open, grabbing the hands of those who walked by and urging many to keep praying and to keep showing up. Some responded with a hug. A few grimaced as they squeezed past.

Shelley Koch, a longtime resident of southwest Virginia, had witnessed a similar scene many Sunday mornings after church services. On this day, however, it played out in a parking lot outside a modest government building in Bristol where officials had just advanced a proposal that threatens to tear apart the very fabric of her community.

For months, residents of the town have battled over whether clinics limit-

"A Good Place to Live" is the motto on the sign that spans across State Street in Bristol, Va. Residents in southwestern Virginia have battled for months over whether abortion clinics limited by strict laws in other states should be allowed to hop over the border and operate there. PHOTOS BY EARL NEIKIRK/AP

In New Mexico, which has one of the country's most liberal abortion access laws, activists in two counties and three cities in the eastern part of the state have successfully sought zoning changes restricting the procedure. Democratic officials have since proposed legislation to ban them from interfering with abortion access.

In the college town of Carbondale, Illinois, a state where abortion remains widely accessible, anti-abortion activists have asked zoning officials to block future clinics from opening after two already operate in town. Thus far, they've been unsuccessful.

Meanwhile, some of the states that have severely restricted abortion access are trying to make it harder for residents to end their pregnancies elsewhere. Employees at the University of Idaho who refer students to a clinic just 8 miles away in the liberal-leaning state of Washington could face felony charges under a recently passed state law.

Perhaps no other place so neatly encapsulates the issue as the twin cities of Bristol, Virginia, and Bristol, Tennessee.

building — an experience he remembers "vividly."
"I saw this huge insect on the side of the building," he said in a news release

bug he plucked from the Walmart's exterior was an ant lion. According to the Missouri Department of Conservation, the insects have:

Zoom call, he realized it wasn't what he originally thought.

The insect, he learned, was a true conversation piece.

"We were watching what Dr. Skvarla saw under his microscope, and he's talking about the features and then just kinda stops," said Codey Mathis, a doctoral candidate in entomology at Penn State.

"We all realized together that the insect was not what it was labeled and was in fact a super-rare giant lacewing. I still remember the feeling. It was so gratifying to know that the excitement doesn't dim, the wonder isn't lost. Here we were making a true discovery in the middle of an online lab course."

Skvarla and his colleagues then performed DNA testing on the specimen to confirm its true identity.

university. "Here we were, just looking at specimens to identify them, and all of a sudden, out of nowhere, this incredible new record pops up."

A giant lacewing spotted in an urban area of Arkansas likely reveals a bigger story about biodiversity and a changing environment, Skvarla said.

Scientists, the release says, hypothesize the insect's disappearance could be the result of the ever-increasing amount of artificial light and pollution of urbanization; suppression of forest fires in eastern North America, if the insects rely on post-fire environments; the introduction of non-native predators such as large ground beetles; and introduction of non-native earthworms, which significantly altered the composition of forest leaf litter and soil.

Electricity Supply Program Rockland Community Power

The Towns of Clarkstown and Orangetown, and the Villages of Grand View-On-Hudson, Haverstraw, Nyack and Upper Nyack are participating in the Rockland Community Power program. This is a community choice aggregation (CCA) program helping municipalities secure more favorable terms for electricity supply and supporting renewable generation sources.

ROCKLAND COMMUNITY POWER ENERGY PROGRAM: Jan. 9 Online Info Session

Six Rockland County municipalities are participating in the second round of the Rockland Community Power program: Clarkstown, Orangetown, and the Villages of Grand View-On-Hudson, Haverstraw, Nyack, and Upper Nyack.

The Rockland Community Power program provides eligible residents and small businesses with the option of either renewable or standard electricity supply at competitive, fixed rates, with no individual contracts for consumers and no exit fees. Over two years, program participants in six communities saved over \$10 million. The program also gives each of us a way to reduce our carbon footprint, while capping electricity supply rates.

Now this program will renew with new rates in spring 2023. Join us for answers to your questions!

Monday, Jan 9, 7:00 PM - Zoom
Join Zoom Meeting <https://bit.ly/rcp1-9>
Meeting ID: 878 9506 7423

One tap mobile: +19292056099_87895067423#
Or call: 1 929 205 6099
Meeting ID: 878 9506 7423

Links to all online meetings are posted at www.rocklandcommunitypower.com/events.

Some of the benefits of the program include access to renewable electricity at a fixed and competitive rate, with strong consumer protection, and no individual contract to sign. No action is required for those eligible to participate.

All eligible customers will receive a letter, most likely in February, with information about the program, choices, and information about how to opt out of the program, if you prefer to do so.
